About me

I'm a front-end developer with a strong focus on presentation, and have experience in the advertising industry. I build pixel-perfect accessible and responsive websites. I've always enjoyed the technical aspects of my previous jobs but didn't get to practice and update my skills as often as I would've liked.

To gain knowledge about modern development techniques, upskill, and expand my horizons, I decided to do the Certificate in Applied Software Development bootcamp at Dev Academy Aotearoa. Here I learned about the principles of modern full stack development and AGILE processes. It was a fast paced, intensive learning experience. Technical skills were complimented with a strong focus on human skills, where I learnt about empathy, conflict resolution, and how to collaborate and communicate effectively in a team environment.

Experience

Mar – July 2023 **Dev Academy Aotearoa**

Certificate in Applied Software Development

Through hands-on projects and collaborative learning, I gained practical experience in JavaScript, TypeScript, React, Redux, Node.js, Express.js, SQLite, RESTful APIs, Git, HTML and CSS.

Sept 2021 **Freelance**
